Why to Gressoney with Heli-Guides Group:

Our highly experienced IFMGA guides will select the best descents according to the snow conditions and your skiing abilities. Putting safety always first, our goal is to help you fulfill your dreams and expectations.

Snow conditions:

Thanks to the altitude of the area and the frequent influence from the south the Monte Rosa massif can expect heavy snowfall all winter long. From December to mid-March you can find here mostly powder snow conditions. till early May we can still ski in mostly perfect condition.

Maximize your Heli-Skiing time with our small groups:

Small group's means less wait time between runs, so you can make the most of your time on the mountain. By using smaller, more agile helicopters, you can explore further and deeper into our majestic playground. We work with max. of four participants per mountain guide.
